## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 05/24/2006 has been entered.
2. Applicants' amendment dated 04/24/2006 has been received and entered. By the amendment, claims 1-12 are remain pending in the application.
3. Applicant's arguments dated 04/24/2006 have been considered but are moot in view of the new ground(s) of rejection.
4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

### ***Claim Rejections - 35 USC § 102***

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002

Art Unit: 2871

do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

6. Claims 1-12 are rejected under 35 U.S.C. 102(e) as being anticipated by Akamatsu et al., US Patent No. 6,414,730.

The above claims are anticipated by Akamatsu et al. figures 1, 2A and accompanying text which discloses a liquid crystal display (LCD) device and a method for fabricating of the same comprising:

- . an insulating substrate (51);
- . a plurality of data lines (61);
- . a plurality of gate lines (60);
- . a gate insulating film (53);
- . a plurality of thin film transistors (TFTs) (62) having a gate electrode (52), a semiconductor layer (54) a source/drain electrode(s) (58/59);
- . a pixel region with a pixel electrode (69) as claimed (e.g., directly contacted the insulating substrate 51, a drain electrode 59).

It should be noted that the method of manufacturing the device is merely a list of forming each component and each component must be formed to make the device, the method of manufacturing would be inherent to the device.

***Conclusion***

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
